CELEBRATING MILESTONES: BUCKEYE LEADERSHIP FELLOWS

CELEBRATING 5 YEARS of ENHANCING THE EDUCATIONAL EXPERIENCE THROUGH LEADERSHIP AND PROFESSIONAL DEVELOPMENT

The Buckeye Leadership Fellows Program (BLF), an intensive, two-year, personal, professional and leadership development experience strives to create today’s generation of leaders through ongoing developmental workshops to build their professional skills, responding to real-world leadership challenges in non-profits and businesses that require students to engage in problem-based learning and deep reflection to understand and articulate who they are and what they want to contribute to society.

BLF is an exemplar of a true public-private partnership. Donors provide financial sustainability that guarantees the continuity of the program, but their impact does not stop there. These supports provide mentorship, host internships, provide workshops and leadership challenges and influence the leaders of tomorrow. In other words, BLF does not happen without great support.

THROUGH TRANSFORMATION, TRADITION REMAINS

Ohio State has a strong history of honoring those who have served our country by naming residence halls after fallen veterans, and we are proud to carry on this tradition as we transform the North Residential District, including carrying forward the names used in the original district.

The Office of Student Life, in conjunction with the Office of Military and Veteran Services and a number of students have identified a diverse group of former Ohio State students who served with distinction in the military in the years since the Korean Conflict. Each lobby includes the story behind the name, with a display featuring information on the life and contributions of the individuals for whom the building is named.

TOM W. DAVIS CLOCK TOWER

By the fall of 2017, a 75-foot-tall brick tower will rise from the north residential district’s “town square”. It will have a clock on its north face and a 20-foot-by-40-foot vertical video display on its south face. Thanks to a $1.4 million gift to the Ohio State University from Columbus businessman Tom W. Davis, the tower was designed to be an anchor and iconic landmark for the North Residential District. The tower will incorporate four oval carved-stone tablets, called cartouches that were saved after being removed from the William Oxley Thompson Memorial Library during a 2009 renovation.
