    - i. Code of student conduct is reviewed every five years. Code currently sits on the boards website. This is a review year for us. Have to consider the timing of submitting any recommendations moving forward. Making sure it gets to the right place at the right time. Putting together a subcommittee to work on the revisions.
      1. A lot has happened in the world of compliance since the letter (Dear Colleague letter) that came out regarding sexual assault, etc.

  - c. Matt Page
    - i. Student Conduct- all students are beholden to the student code of conduct
    - ii. Goes in depth from jurisdiction, to prohibitive behavior, all the way to the rights students have
  - d. Questions
    - i. What is the relationship between this work and the campus climate committee?
      1. Kellie- One of the university’s goals was to create a taskforce of people coming from all over the university (lots of high level administrators). Buckeyes Act Taskforce. There’s a faculty taskforce as well with research interests in these areas.

2. Doug- You being at the table is how the relationship happens. It's our job to connect the dots.
- ii. How do you clarify or qualify if something is a hate crime or not?
  1. Kellie- Sexual Misconduct Policy covers interpersonal behavior of a sexual nature. Title IX itself covers discrimination policies. Broad enough to cover instances of gender based harassment, or discrimination and bullying based on norms of gender stereotypes
- iii. Are there certain rules outside of the code that apply to the regional locations?
  1. Matt- If you are enrolled at OSU you are beholden to the student code of conduct.
  2. Kellie- There could always be other policies added at regional campuses. In the hopes these do not conflict.
