

Program Review External Committee Nomination Form

The unit director will compile a list of at least six (6) potential external reviewers, with input from the relevant Assistant/Associate Vice President, including reviewer names, current position, institution and rationale for their inclusion. In some cases, directors can propose an internal reviewer to sit on the committee if there is a convincing rationale for the selection (e.g., national faculty expert, unique unit being reviewed, critical partnership within the university). The Senior Vice President will approve the final list of reviewers, with the goal of having three (3) reviewers total per program review.
